Enrique Casado

Boeing

Professional Education/Tutorial Chair

Krishna Sampigethaya

Embry–Riddle Aeronautical University–Prescott

Local Arrangements Chair

Xavier Prats

Universitat Politècnica de Catalunya

Student Research Competition Chair

Giancarmine Fasano

University of Naples

Awards Chair

Chris Watkins

Gulfstream Aerospace Corporation

Conference Manager

Claire Folkerts

Conference Catalysts, LLC

Join us in Barcelona, Spain for the 42nd AIAA/IEEE Digital Avionics Systems Conference (DASC), the preeminent R&D conference in the field of digital avionics offered by two distinguished professional societies, the American Institute of Aeronautics and Astronautics (AIAA) and the Institute of Electrical and Electronics Engineers (IEEE). Continuing its rich tradition of incorporating attendees from diverse backgrounds to discuss relevant technical topics, the conference continues to provide an environment that includes educational and recreational opportunities. We welcome everyone to join us at the 42nd DASC.

Areas of emphasis will include:

- » Airspace Integration of Autonomous Vehicles
- » Flight Operational Efficiency for Reduced Carbon Emissions
- » Machine Learning in Practice
- » Cognitive Assistants
- » Security & Information Assurance
- » Flight Deck of the Future
- » Security/Assurance
- » Single pilot and reduced crew operations
- » Trust in automation
- » Certification
