AESS seeks candidates for the Board of Governors

Candidates Sought for the AES Board of Governors, for 3-year term beginning 2011. Any AES member of IEEE grades Member, Senior or Fellow are eligible for election to the AES Board of Governors (BoG). Individuals interested in being considered should submit a note

Awards

Call for Nominations

Frank McGinnis Professional Achievement Award

Nomination Deadline 31 May 2010

The prestigious Frank McGinnis Professional Achievement Award will be presented at IEEE AUTOTESTCON 2010 in Orlando, FL on September 13-16, 2010 to the individual who best upholds the tradition of advancing the field of Automated Test. This award is named for Automated Test pioneer and Sperry employee, the late Frank McGinnis, who spearheaded a Navy (1975) and then a Joint Services (1978) Automatic Test Project to identify and recommend those areas where the military should invest in automated test research & development, and improve management practices. It resulted in the formation of the National Defense Industrial Association (NDIA) Automatic Test Committee which endures today, and which also holds one of its annual meetings in conjunction with AUTOTESTCON. The honoree receives \$2,000 and an award item. For more information and the nomination form, click [here](#).

Conference Information

AESS Seeking Representative for Carnahan Conference

The IEEE International Carnahan Conference on Security Technology (ICCSST), otherwise known as the Carnahan Conference is a longstanding international forum for exchanging technology on security systems for aviation, communications and internet. The ICCST is directed toward the research and development aspects of electronic security technology including the operational testing of the

Redesigned Announcements and Job Opportunitites

The screenshot shows the homepage of the Aerospace and Electronic Systems Society (AESS). At the top, there is a search bar and the IEEE logo. The main header features the AESS logo (a diamond shape with 'a', 'e', 's', 's' inside) and the text "THE AEROSPACE AND ELECTRONIC SYSTEMS SOCIETY WELCOME TO THE AESS". Below the header is a navigation menu with links: Home, About the AESS, Conferences, Education, Membership, Publications, and Technical Operations.

President's Welcome Message

 The Aerospace and Electronic Systems Society (AESS) offers to its members the extraordinary opportunity to become deeply connected with the three pillars of the Aerospace, Electronic and Defence sector: Industry, Institutions and Research Centers.

The effective interaction between those pillars is the key element for the organization, design, development and operation of successful Complex Systems, which are the core of the AESS Field of Interest (FoI).

AESS Complex Systems covers space, air, ocean and ground environment, including hardware, software, integration and many other aspects of the Engineering job.

The AESS Conferences, Workshops, Transactions, Magazine and Educational tools enhance and disseminate the culture of Complex Systems through the international AESS community, bringing to a large and beneficial exchange of experience and achievements among our members.

If you have questions or comments please do not hesitate to contact us.

I warmly welcome all AESS members and I look forward to welcoming in our society all IEEE non-AESS members and all Internet navigators that are visiting our website! Join us!

 **IEEE Aerospace and Electronic Systems Society**

[Overview](#) [Discussions](#) [News](#) [Jobs](#) [Subgroups](#) [Manage](#) [More...](#) [Group Profile](#)

The IEEE Aerospace and Electronic Systems Society is an international, professional engineering organization. The members are dedicated to the organization, design, development, integration, and operation of complex systems for space, air, ocean, or ground environments. These systems include but are not limited to navigation, avionics, mobile electric power and electronics, radar, sonar, telemetry, military, law-enforcement, automatic test, simulators, and command and control. Many AES members are concerned with the practice of system engineering. Members of the AES are involved in a number of activities including holding conferences, publication of the Systems Magazine and Transactions on AES, sponsoring Chapters globally, sponsoring Technical Panels in various specialized areas, and other activities of interest to our members. Membership in this LinkedIn Group is limited to members of the Society.

Facebook

The screenshot shows the Facebook profile page for the IEEE Aerospace and Electronic Systems Society. The page layout includes a top navigation bar with the Facebook logo and search bar, and a user profile header for the organization. The main content area is divided into several sections: a left-hand navigation menu with options like 'Message All Members', 'Edit Group Settings', and 'Write something about IEEE Aerospace and Electronic Systems Society'; a central 'Basic Info' section with details on the organization's name, category, and description; a 'Contact Info' section with an email address and website; a 'Recent News' section with two news items dated October 2007 and July 2007; an 'Admins' section listing Judy Schumann; an 'Officers' section listing Dan Stry; and a 'Members' section showing a grid of member profile pictures. On the right side, there are advertisements for 'Aerospace Engineers Rock' and 'New Dimension Industries, LLC', along with a music player for 'New classical music in NY'.

Benefits of Networking Sites:

- Search engines have more to find
- We can post announcements. Anything we put in the Magazine and on the QEB can be announced on these sites: upcoming conferences, CFPs, deadlines, call for nominations, membership information, award announcements, job opportunities, student activities and information, technical panel activity, etc.
