

## Royal Aeronautical Society Report

Jim Leonard

I am a Fellow of the Royal Aeronautical Society (RAeS) and have been working with them and the Future of Flight Museum (AESS helped fund a student exchange program with the UK several years ago).

This year, I was able to tour the Boeing (Insitu) Scan-Eagle Production facility in Stevens, OR. While there, I made a request for a Scan-Eagle full scale model that could be exhibited at the Future of Flight Museum. Then I made an email connection between Ann Averill at the FoF Museum and Insitu. If all goes well, there should be a model on display at the FoF Museum in 2014. The FoF Museum is located in Everett, WA, next to the large Boeing assembly plant.
