

MINUTES OF CAS TC ON POWER SYSTEMS AND POWER ELECTRONICS
June 1 ISCAS 1999 ORLANDO FLORIDA
Chair Ian Dobson

(1) Ian Dobson summarized the TC report for 98-99.

(2) Special sessions for the next ISCAS were discussed.
Several opportunities for special sessions in power systems
were discussed.

(3) The present and past associate editors Marian Kazimierczuk
and Adrian Ioinovici described the need for increased efforts
to locate good reviewers.
One persistent difficulty is one associate editor covering both power
systems and power electronics.
The problem arises both from the number of papers in the combined
subjects
and one person locating reviewers in both communities.
It was decided to strongly recommend to CAS that two
associate editors, one for power systems and one for power
electronics,
be appointed.

(4) Coordination between the CAS and Power Electronic societies
to advance systems aspects of power electronics was discussed
by Ian Dobson and Phil Krein, President of IEEE Power Electronic
society.

(5) Alex Stankovic was elected technical committee chair
for 2000-2001 by unanimous consent.
Adrian Ioinovici, elected at the previous meeting,
will serve as chair for 1999-2000.

PRESENT AT MEETING:
NAME, UNIVERSITY OR COMPANY, EMAIL

Ian Dobson, University of Wisconsin, dobson@engr.wisc.edu
Hiroyuki Mori, Meiji University, hmori@isc.meiji.ac.jp
Alex Stankovic, Northeastern University, astankov@cdsp.neu.edu
Philip Krein, University of Illinois, krein@ece.uiuc.edu
Jaber Abu Qahong, University of Central Florida, jaberq@ieee.org
Guangyong Zhu, University of Central Florida,
gz05608@pegasus.cc.ucf.edu
Khalid Rustom, University of Central Florida, krustrom@hotmail.com
Huai Wei, University of Central Florida, hw73486@pegasus.cc.ucf.edu
Issa Batarseh, University of Central Florida, batarseh@mail.ucf.edu
Adrian Ioinovici, Holon Institute of Tech., Israel,
adrian@barley.cteh.ac.il
Mohammad Ali Izadi, Wright State University, aizadi@hotmail.com
Marian Kazimierczuk, Wright State University, mkazim@cs.wright.edu
